

SYSPRO Inventory Management Software

Providing superior inventory control that optimizes stocking levels

- Ensuring the right goods, at the right place, at the right time.
- Answering... When do I make? When do I buy? What do I stock, and where?

Inventory takes many forms, ranging from raw materials to finished goods.

SYSPRO Inventory Management forms the core of our manufacturing, distribution and accounting solutions and is designed to...

- ...integrate with all the major functions of the systems
- ...provide flexible reporting on inventory holdings

Features:

- Multiple warehouses and bin numbers
- Multiple costing methods
- A full Kardex facility
- A stock take system
- Including cycle counts
- Extensive reporting.

SYSPRO Inventory Optimization Solution honored with American Business Award ("The Stevie") People's Choice Award in the category of Favorite New Manufacturing Product.
